**Beauty and the yeast**

Seeking solutions to problem skin? The Dayenne skincare range is specially produced for oily, sensitive or acne-prone skin and, after being used worldwide for 25 years, it is finally hitting the UK market.

Formulated by German skincare specialists working in conjunction with dermatologists at a French hospital in

Nanterre, Dayenne is made from young cells of brewers yeast and pure botanical extracts. The young cells of brewers yeast balance the skin's pH and regulate the level of sebum. The Dayenne product range includes soap, cleansing milk, tonic lotion, face mask, day cream, night cream and cover stick.
